

CHARACTER BREAKDOWN- THE LAST RACE

PRIME CAST

ALEX HARRISON- 18 years old. Classic rebellious teenager Harrison leads up Branson's team of teenaged pilot/astronauts. He is an accomplished pilot, partially because of his disregard for his own safety. He will recklessly risk his life for the adrenaline rush in anything that involves speed. He likes skydiving, flying, climbing and motorcycles. He is a gifted athlete. He is afraid of making any romantic commitments. Whether this is because he fears he is from a family of losers or because he expects to die any day, he isn't sure.

JOHN BRANSON-32 years old. Self made billionaire industrialist. Very self confident and self centered. He sees the entire world as there for him to manipulate for gain.

JULIE MCKENA-24 years old. Captain in Army Reserves. Float specialist for Branson Aerospace. She is an expert in the mechanics and dynamics of weightlessness, both in physical terms and its effects on the human body. She is charged with training the Branson pilot team with dealing with zero g. She is also an expert skydiver, skier and mixed martial artist. She is a no-nonsense woman, refuses to take any flak from presumptuous men, and occasionally backs that up with her fists. She is a driven career woman, one of the few Branson respects (or fears).

ADAM HILL-42 years old. African American Genetics professor at the University of New Mexico. Comfortably tenured in the Molecular Genetics and Microbiology Department, Hill thinks most young people are just plain stupid and a waste of oxygen. He has no problem telling them of their inadequacies. He is overweight, disdains exercise, and his favorite food is a double Whopper with fries. While he currently teaches MGM classes to 'a bunch of 'punk-asses,' he was originally hired for his knowledge of human ancestral genetics, and his published papers on dormant ancestral DNA carried by modern man.

CHUCK BILLINGS-18 years old. Member of Branson's pilot/astronaut team. Harrison's best friend. Chuck is a

fun loving, easy-going guy with an engaging smile. Blond, blue eyed and athletic, he enjoys working hard. Doesn't take anything too seriously, especially Harrison during his rants. Excellent copilot, but lacks the aggressiveness to be the lead dog. He prefers to take orders over giving them.

ANN TOLBERT-19 years old. Member of Branson's pilot/astronaut team. She is a little hesitant to take risks, because for the first time in her life, she feels she has something to live for, but she mistakenly trusts Branson like a father.

RISA MADDEN-20 years old. Member of Branson's pilot/astronaut team. Very confident of her abilities both physically and mentally. She is a survivalist, able to be dropped in the wilderness with literally nothing and walk out 6 months later without losing a pound. She thinks Branson is crazy, but the money is good.

FEATURED ROLES

ASTRONAUT COLLINS-MALE-
 ASTRONAUT ARENS-MALE-
 NASA TRACKER 1-MALE-
 NASA CONTROLLER-MALE-
 BAKER-NASA TRACKER AT LAUNCHPAD BAR-MALE-
 CHARLIE-NASA TRACKER AT LAUNCHPAD BAR-MALE-
